Time for a Check-Up!

It is time to take charge of your health! Most adults wait until they are feeling ill to schedule an appointment with their doctor. However, if you schedule a regular health exam you can help find the problem before they start! By getting the right health services, screenings, and treatments, you are taking steps that help your chances for living a longer and healthier life. *CDC.gov* details a few key components to go over before you schedule your next check-up:

1. Review your family health history.
2. Is it time for any annual screenings or vaccinations?
3. Write down a list of issues or concerns you would like to discuss with your doctor.
4. Consider your future.
